At 8 o'clock George Adec, the old Yale watching left the crew sleeping the sleep of the just, and made his way to this city. The only information he hands they have a good fighting chance, he takes rather a pessimistic view of the situation. This is largely due, no doubt, to the previous defeats through the same train with Dr. Brooks ar-

he will no longer be required to impersonate Old Sieuth on the actions of
the rival crew.

Mr. Hess said be did not believe that the Parkhurst agents were molested, and that they only got up the stories to show their importance.
